

Advancement in the preparation of ROGEP

Funded by:  **WORLD BANK GROUP**

Eder Semedo, ECREEE

06th December 2018

ROGEP aims to support the efforts of West Africa and Sahel countries to accelerate the deployment of standalone PV systems for households, public services and productive uses

Pico solar/ solar lanterns

Solar Home Systems

Standalone systems for Public institutions

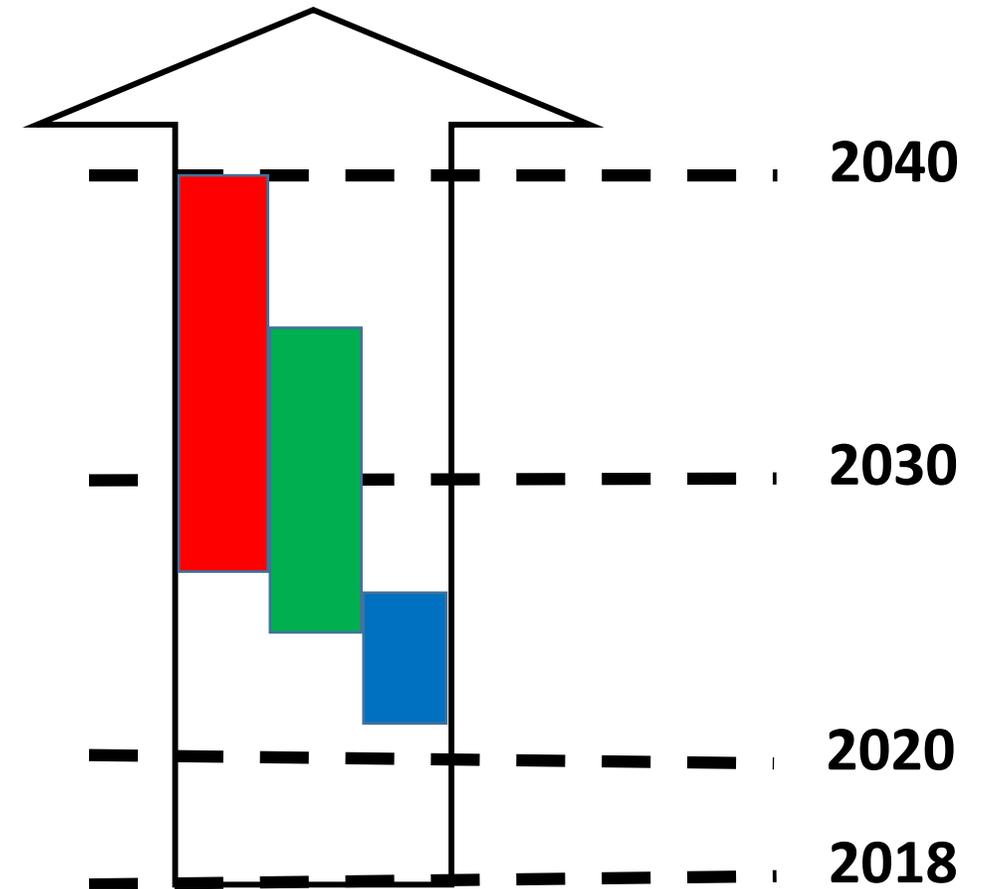

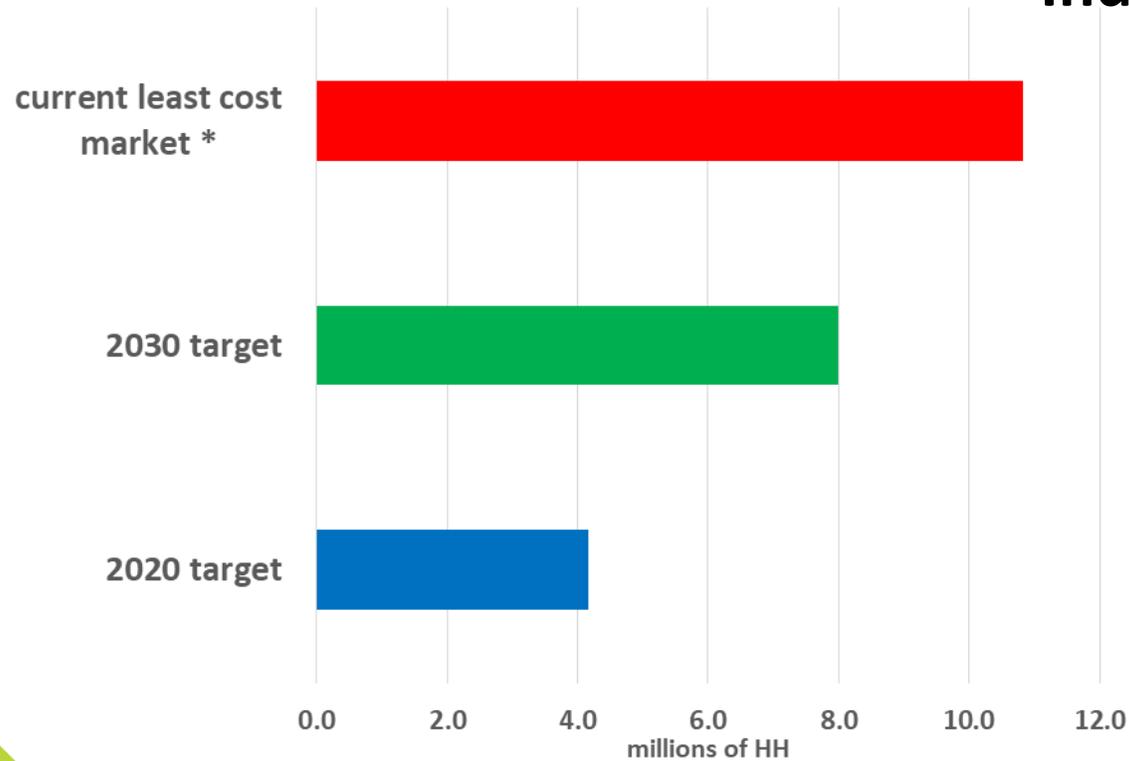

Standalone systems for Productive uses

- 15 ECOWAS countries + Chad, Central Africa Republic, Mauritania, Cameroon
- Focus on mobilizing private investment with a market based approach

ROGEP is conceived to support the countries in the acceleration to achieve and exceed their targets benefitting from regional market

Indicative timeframe for targets' achievements**

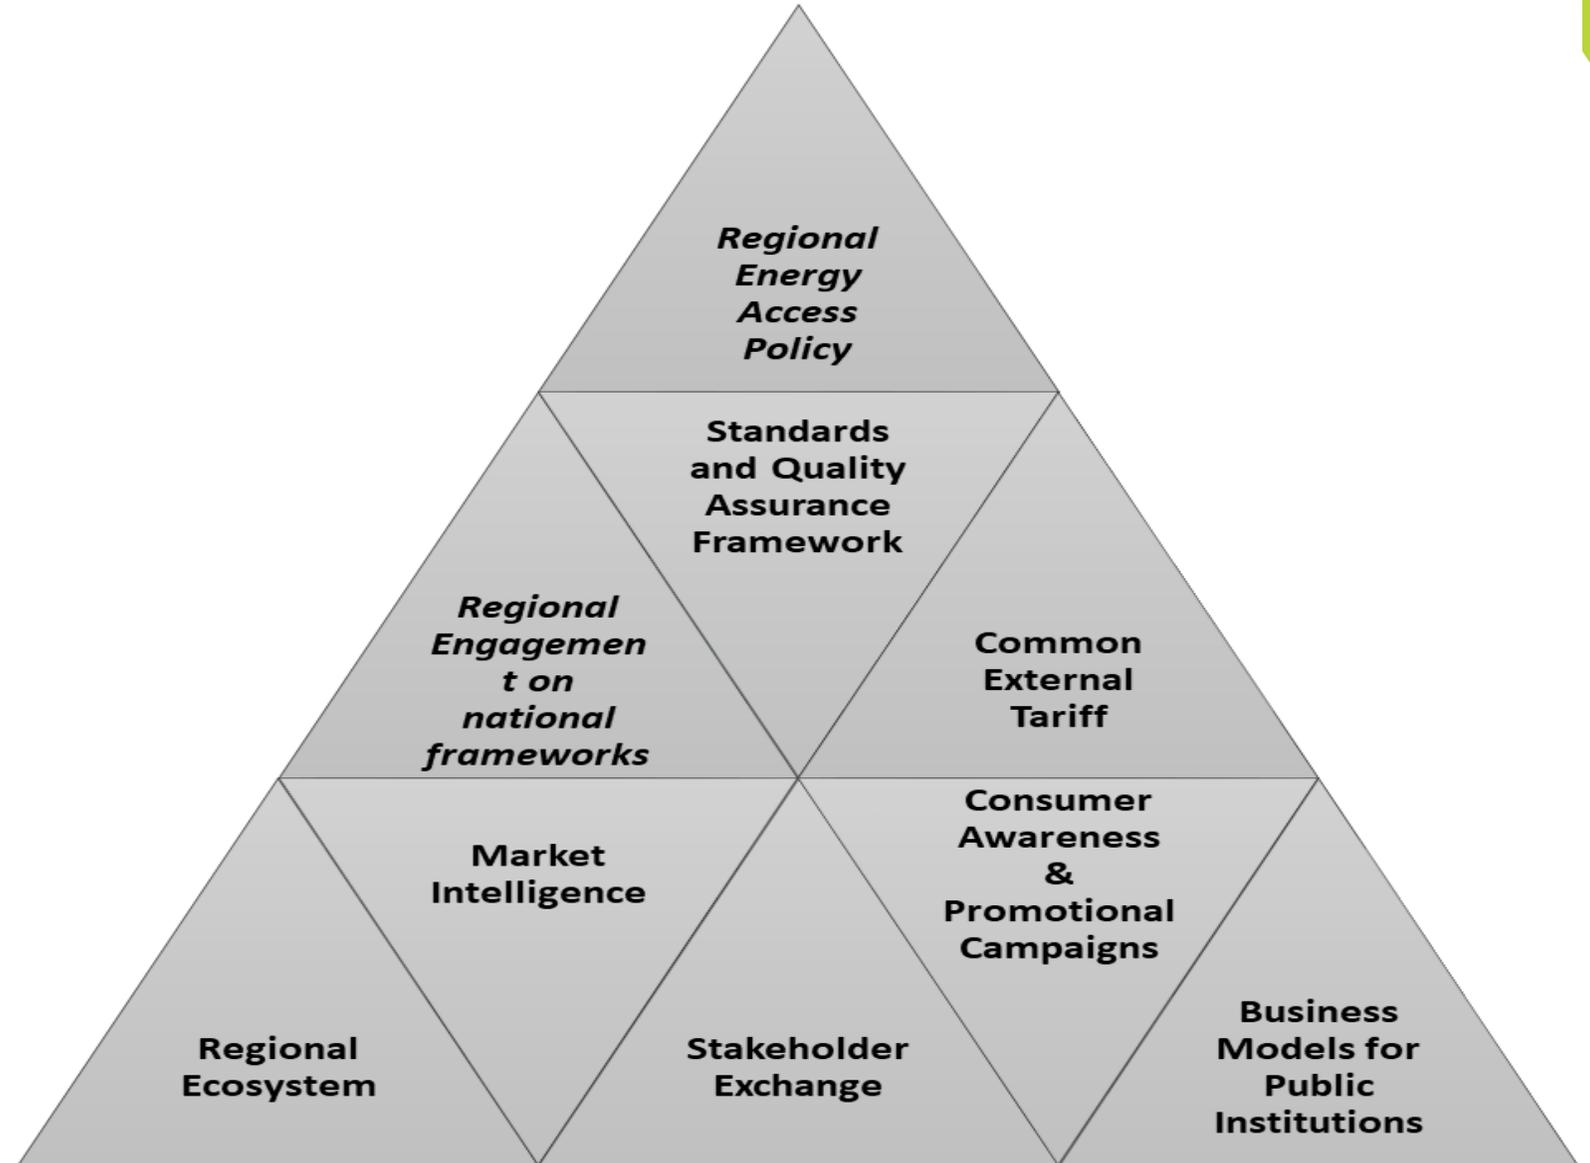

* ECREEE GIS analysis preliminary results

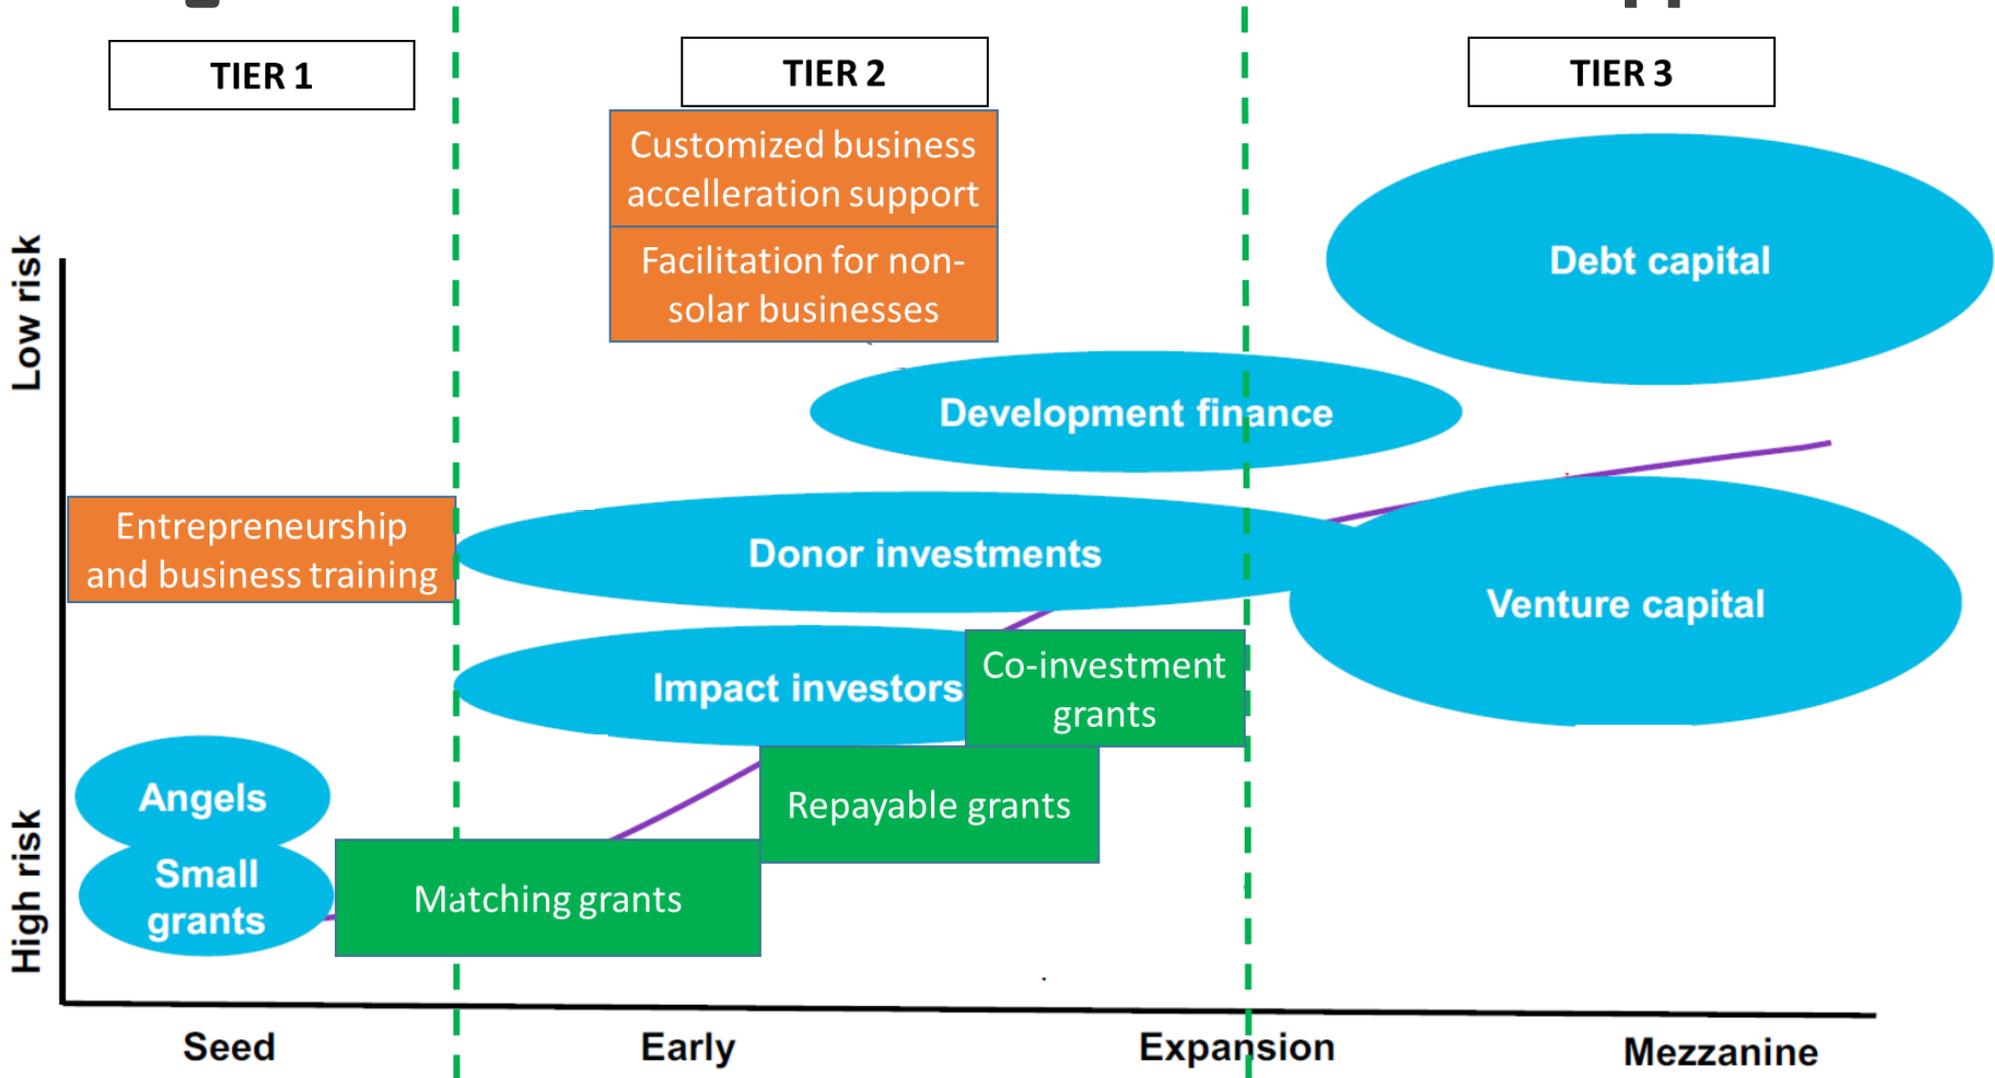

** own calculation based Global Off-Grid Solar Market Report
Semi-Annual Sales and Impact Data JULY-DECEMBER 2017,
PUBLIC REPORT, with range 2-4 systems/ HH

WWW.ECREEE.ORG

Component 1a supports the enabling environment of the regional market by focusing on key regional aspects and their interface with the national dimension

Component 1b scales up the regional RE entrepreneurship facility, supporting TIER 1 and 2 local companies' participation in the regional market through a combination of TAs and financial support

Components 1c and 2 promote access to risk mitigated debt finance in collaboration with EBID and BOAD
