

Supporting Energy Transition in
Mozambique Since 2010

DISTRIBUTED GENERATION

- Market Insight information from GET.invest;
- New Electricity Law foresees self-production and sale of surplus to the grid;
- Government working group setup to define feed-in parameters;

NEW SECTOR OPPORTUNITIES

GreenLight

NEW SECTOR OPPORTUNITIES

CLEANER-COOKING

- 90% of Mozambicans rely on biomass fuels;
- Potential demand estimated for clean cooking at 2 million stoves in urban areas and 3.2 million in rural areas;
- Focus on briquettes, pellets, biogas ethanol, LPG, e-cooking
- Government developing Clean Cooking Strategy

NEW SECTOR OPPORTUNITIES

PRODUCTIVE USE OF ENERGY

- Gradual Increasing income of rural farmers with value chain diversification in cash crops (ability to pay)
- Yet only 3% of cropland is irrigated and 30% crop spoilage due to storage conditions
- Potential for solar irrigation, solar cooling, milling and other processing technology

GreenLight

NEW SECTOR OPPORTUNITIES

BIOFUELS

- New biofuels regulation approved October 2023;
- Blending mandate starting at E10 and B3 from 2024;
- New investment opportunities in bio-ethanol crop production, processing, blending and distribution infrastructure
- Rural economy diversification
