

The 1st Annual

# SOUTHERN AFRICA CLEAN ENERGY SUMMIT & *Networking Gala Dinner*

01 - 02 DECEMBER 2022 | WINDHOEK, NAMIBIA

# OVERVIEW

It is abundantly clear that if the world continues to produce its fuels and energy using fossil fuels, the planet will be uninhabitable in the future. This has led to the acceleration of efforts to migrate to sustainable, renewable and cleaner ways of harnessing energy, globally.

Africa will not remain behind in these initiatives. As one of the continents endowed with renewable natural resources, Africa has to actively contribute to achieving the goal of a green future.

Join top energy policymakers, private sector leaders, and other change makers from around Southern Africa on 01 - 02 December, 2022 at the Hilton hotel, Windhoek. The SACES 2022 Clean Energy Summit will feature in-depth discussions of the state of green energy in Southern Africa, critical investments needed for stimulating the industry and other important issues surrounding clean energy.

## WHO WILL ATTEND ?

**Government agencies involved in green energy**

**Equipment manufacturers**

**Financial investment and service companies**

**Researchers, scientists & engineers working in clean energy & environmental researchers**

**Companies involved with Energy production, and mentoring**

**Environmentalists and practitioners**

**Policy Makers**

**Energy utilities and planners**

**Nonprofit organizations**

**Building architects and engineers**

## SUMMIT OBJECTIVES

As Africa Growth Solutions, we endeavour to accelerate growth in renewable energy initiatives. This way, Africa may become a success in the generation of sustainable energy. All industry players in the SADC region will then gather in this our first annual Southern Africa Clean Energy Summit, with the goal of fostering such growth and improvements in the energy sector.

The summit objectives are as follows:

- Bring together industry-specialists, principals and policy makers to provide the latest, most relevant data and information needed to achieve a Green Africa in the near future.
- Facilitate networking initiatives between energy financiers and industry players who may need financing in their various projects in the region.
- Create a platform where relevant government officials can interact with even the small industry-contributors and have important questions and ideas posed to them.
- To create an environment where sustainable partnerships of all forms can be facilitated.

# DAY 1

01 DEC 2022

- **RENEWABLE ENERGY ADVANCES, FORECASTING AND ECONOMIC PROSPECTS (SOUTHERN AFRICA PERSPECTIVE) - CEO BREAKFAST**
- **WIND & HYDRO ENERGY - A TAKE INTO GOVERNMENT POLICIES IN SOUTHERN AFRICA**
- **SOLAR ENERGY: THE BRICS INITIATIVE**
- **FUNDING RENEWABLE ENERGY - AFRICAN DEVELOPMENT BANK**
- **KEYNOTE PANEL: OPPORTUNITIES FOR PRIVATE SECTOR AND SMES IN ENERGY DEVELOPMENT FOR SOUTHERN AFRICA**
- **NETWORKING GALA DINNER**

# DAY 2

02 DEC 2022

- **SOUTHERN AFRICAN SOLAR ENERGY CASE STUDIES**
- **SOUTHERN AFRICA SUSTAINABLE FUELS CASE STUDIES**
- **ESG AND ELECTRIFYING AFRICA**
- **BREAK - OUT SESSIONS**
- **THE CURRENT STATE AND THE MODERNISATION OF AFRICAN ELECTRICITY GRIDS**
